NSF Graduate Research Fellowship Program

APPLICANT RATING SHEET

Applicant: Julian, Resasco

Panel: Ecology

Intellectual Merit Criterion

Demonstrated intellectual ability and other accepted requisites for scholarly scientific study, such as the ability (1) to plan and conduct research; (2) to work as a member of a team as well as independently; and (3) to interpret and communicate research findings.

Overall Assessment of Intellectual Merit Excellent Very Good Good Fair Poor

Mandatory - explain assessment to the applicant: You have demonstrated that you can articulate a reasonable research project to test some theoretical questions that w the answers to which would advance the field. Your background of education + experience bodes well for success. I applaud your use of a pre-existing system. I do question - Why ants? Are they ideal for the test?

Broader Impacts Criterion

Contributions that (1) effectively integrate research and education at all levels, infuse learning with the excitement of discovery, and assure that the findings and methods of research are communicated in a broad context and to a large audience; (2) encourage diversity, broaden opportunities, and enable the participation of all citizens--women and men, underrepresented minorities, and persons with disabilities--in science and research; (3) enhance scientific and technical understanding; and (4) benefit society.

Overall Assessment of Broader Impacts Excellent Very Good Good Fair Poor

Mandatory - explain assessment to the applicant: Your application package reflects a person who is a multifaceted scientist. The research and educational pieces are integrated in authentic ways. Your commitment to diversity and inclusion is well noted.
