NSF Graduate Research Fellowship Program
APPLICANT RATING SHEET

Applicant: Julian, Resasco
Panel: Ecology

Intellectual Merit Criterion

Demonstrated intellectual ability and other accepted requisites for scholarly scientific study, such as the ability (1) to plan and conduct research; (2) to work as a member of a team as well as independently; and (3) to interpret and communicate research findings.

Overall Assessment of Intellectual Merit Excellent Very Good Good Fair Poor

Mandatory - explain assessment to the applicant: This is a most original idea, and it will provide much needed data that will be interesting in their own right and for application

Broader Impacts Criterion

Contributions that (1) effectively integrate research and education at all levels, infuse learning with the excitement of discovery, and assure that the findings and methods of research are communicated in a broad context and to a large audience; (2) encourage diversity, broaden opportunities, and enable the participation of all citizens--women and men, underrepresented minorities, and persons with disabilities--in science and research; (3) enhance scientific and technical understanding; and (4) benefit society.

Overall Assessment of Broader Impacts Excellent Very Good Good Fair Poor

Mandatory - explain assessment to the applicant: You are clearly a person who wants to integrate research and education and open the eyes of populations traditionally underrepresented in science. You will serve as a excellent model & mentor. I would have liked to see how you will integrate research and education in your project.

Reviewer comments to the applicant on this rating sheet should be constructive and reflect the two NSF merit review criteria. Applicants
